CLEAN RIDE

Our Commitment to Cleaning, Disinfecting, & Protection

Feel Safe

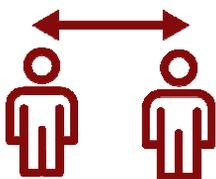

Every motor coach is thoroughly cleaned and disinfected using EPA approved disinfectants before, during, and after each use as follows:

- ✓ Remove all dirt and debris, flooring mopped
- ✓ Special focus on disinfecting Critical Touch Points using industry recommended 36-point checklist
- ✓ Throughout the day your driver will disinfect Critical Touch Points using industry recommended 10-point checklist

Onboard air quality optimized as follows:

- ✓ Cabin air completely exchanged with fresh outside air approximately every 10 minutes
- ✓ HVAC system filters recirculated air with MERV 7 filter media—removing respiratory droplets

Optional seat distancing:

- ✓ We will leave it up to each group to determine if they will allow individuals to sit next to each other. You're welcome to skip seats or rows depending on your group size.
- ✓ We ask that you help our driver in physical distancing whenever possible

Do Your Part

- ✓ All Passengers are **required** to wear a face covering: its required for our drivers
- ✓ Maintain physical distancing as you enter and exit the coach
- ✓ Hand sanitizer dispensers are located at the front and rear of the coach
- ✓ PLEASE DO NOT TRAVEL IF YOU ARE SICK

- ✓ For your safety and that of other passengers, please refrain from walking throughout the motor coach unless absolutely necessary
- ✓ Before exiting the motor coach at each stop, we ask all passengers to clean their area of debris, trash, cups, and tissues that they may have used during their trip and bring to the rear or front of the coach to toss in the trash receptacle

Travel With Confidence

- ✓ We consistently comply with guidance as provided by industry associations as well as the CDC, WHO, and local governments
- ✓ Our drivers, technicians, and staff have been trained in best practices
- ✓ We have invested in an Electrostatic Sprayer to ensure disinfecting products are applied effectively

We are going the extra mile to keep our coaches **clean** and **safe** for you based on current federal guidelines.
